PUBLICATIONS OF THE COMMONWEALTH BUREAU OF CENSUS AND STATISTICS, CANBERRA.

INTRODUCTION

The Commonwealth Bureau of Census and Statistics, Canberra, and the Offices of the Deputy Commonwealth Statistician in each State provide a comprehensive statistical service. Each Office issues a series of publications and in addition provides information in response to individual requests. In certain instances where data must be specially extracted and a regular return is required, a charge is made for supplying this information.

This List of Publications relates only to publications issued by the Commonwealth Bureau of Census and Statistics, Canberra. Those issued by Offices of the Deputy Commonwealth Statistician may be requested from the following addresses:—

Publications of the Bureau in Canberra may be classified broadly under three headings

General
Census
Reports and Bulletins

General Publications include statistics on all major topics. They are in the main, printed publications which give statistics of a wide variety of subjects. They are obtainable as indicated on Page 2.

Census Publications have been issued in respect of each Commonwealth Census taken, namely, 1911, 1921, 1933, 1947 and 1954 Censuses. Details of publications relating to earlier Censuses are available on request, and those issued to date in respect of the 1954 Census are listed on Page 3.

Reports and Bulletins deal mainly with individual topics and are of three kinds – (i) Printed publications containing detailed tables of the main statistics collected (ii) supplementary publications issued from time to time in mimeographed form, bringing the statistics up to date, providing further details, or releasing new statistics in preliminary form, (iii) reports of special surveys or censuses such as those of the retail trade and motor vehicle censuses. (Where such reports are issued at irregular intervals the last issue only is shown).

Appended to this list of Bureau publications is a subject index to their contents designed to provide a guide in the selection of the publications containing statistics on a given subject.

Copies of the publications for which prices are shown in this List are obtainable by purchase direct from the Government Printer, Canberra, the Offices of the Deputy Commonwealth Statistician, the Commonwealth Sub-Treasury in each capital city, or they may be ordered through the leading book-sellers in the principal cities of Australia. A limited number of copies of these publications is available from the Commonwealth Statistician for distribution, free of charge to Members of Parliament, Commonwealth and State Government Departments, public bodies and publicists, etc.

The prices quoted include postage within the British Commonwealth. – Postage to foreign countries is higher.

This index is designed as a subject index only to show the Bureau publications in which information on the various subjects dealt with by the Bureau is to be found. It also serves as an aid to the reader in the selection and ordering of any of the publications required. It is not intended as a detailed index. The table of contents or index to the publication itself provides particulars of the detailed tables contained therein.

No references are given to the Official Year Book or the Pocket Compendium each of which provides a comprehensive range of statistics and is indexed.

Detailed lists of items of production and of overseas trade are omitted from this index because of the number of items involved: for these the annual bulletins "Secondary Industries" and "Overseas Trade" have comprehensive alphabetical listings. The annual production series "Manufacturing Industries" and the monthly series "Production Summaries" each has a single reference number only in this index but alphabetical lists showing the individual industries covered in each series are given.
